

Gas Installation Engineer

Paine Manwaring Limited is a long-established Mechanical and Electrical Contractor employing 106 staff providing installation and maintenance services from offices in Worthing and Chichester.

We currently have an exciting opportunity for an experienced Gas Installation engineer to join the growing Service & Maintenance department within this long-established and highly respected contractor.

The main aim of the position is to carry out gas installation including plumbing to both our domestic and commercial customer base.

The Gas Service Engineer must have experience of working within a service environment. You must have the ability to use your own initiative and good customer liaison skills are a necessity, as are overall verbal and written communication skills.

The role requires the ability to work to set timescales, diligence, and attention to detail. A pleasant professional personality, customer liaison skills, and the capability to multitask are also desirable attributes.

You will be provided with a van, mobile phone, as well as uniform and FGA.

Responsibilities include:

- * Installation of Domestic Gas Appliances
- * Installation of cylinders and controls
- * Good Knowledge of central heating system design
- * General plumbing
- * Completing job reports and legal Gas certificates to ensure compliance.

Qualifications

The applicant must have the following qualifications

CCN1

CENWAT

HTR1

It would also be preferable if applicants hold the following qualifications:

Unvented

DAH

Remuneration Package

- Competitive salary depending on experience
- Pension Options
- Company Events
- Sick Pay
- Friendly and supportive office environment, as well as genuine career progression opportunities - scope to progression to commercial gas qualifications, within the company.

Job Types: Full-time, Permanent

Salary: From £33,000.00 per year
